KRATON

SAFETY DATA SHEET

Version # 3.0

Issue date: 31-January-2022 Revision date: 30-January-2024 Supersedes date: 23-June-2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation

of the mixture

Kraton™ D Milled Polymers (SBS and SBS OE)

Nanoform

Registration number

Suffixes designate location of manufacture, dusting agent, product form * The Nanoform Synonyms

statement and information regarding Silica, amorphous which is listed in Sections 1 and 3 are applicable ONLY when these grades contain silica as a dusting agent (2nd suffix S), * Synthetic amorphous silica is a nanostructured material according to the definition of ISO TS 80004-1 and as defined in Regulation 2011/696/EU, as amended. * The silica dusting agent is composed of

primary particles with a median size < 100 nm which are present as aggregates and agglomerates with a mean diameter scale range above 100 nm in the dusting agent used.

SDS number 14315

Product code D1101 AIM, D1101 ASM, D1101 JSM, D1101 KIM, D1116 AIM, D1116 ASM, D1116 KIM, D1118

ASM, D1118 ESM, D1118 ETM, D1118 KIM, D1133 KIM, D1184 AIM, D1184 ASM, D1184 ESM, D1184 KIM, D1189 ASM, D1191 EIM, D1191 ESM, D1192 ASM, D1192 ATM, D1192 ESM,

D1192 ETM, D1118 KTM, D1157 ETM, D1152 ESM, D4153 ESM

1.2. Relevant identified uses of the substance or mixture and uses advised against

Thermoplastic Elastomers for Advanced Materials, Adhesives, Sealants & Coatings, and Paving & Identified uses

Roofing.

Uses advised against None known.

1.3. Details of the supplier of the safety data sheet

CORPORATE OFFICE

Material name: Kraton™ D Milled Polymers (SBS and SBS OE) 14315 Version #: 3,0 Revision date: 30-January-2024 Issue date: 31-January-2022

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: Styrene-Butadiene-Styrene Polymer (SBS)

Hazard pictograms None.
Signal word None.

Hazard statements The mixture does not meet the criteria for classification.

Precautionary statements

Prevention Material can accumulate static charges which may cause an electrical spark (ignition source).

Use proper bonding and/or grounding procedures. Keep away from heat/sparks/open flames and hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Prevent dust accumulation to minimize explosion hazard. Observe good industrial

hygiene practices.

Response Not available.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Supplemental label

information

None.

2.3. Other hazards This mixture does not contain substances assessed to be vPvB / PBT according to Regulation

(EC) No 1907/2006, Annex XIII. The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. May form explosible dust-air

mixture if dispersed. Static charge accumulation potential.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Particle size distribution 0 Not available

SECTION 4: First aid measures

General information Not available.

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contactWash off with soap and water. Get medical attention if irritation develops and persists. **Eye contact**Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed

Dusts may irritate the respiratory tract, skin and eyes. Prolonged contact may cause dryness of

the skin.

4.3. Indication of anyTreat symptomatica

immediate medical attention and special treatment needed

Treat symptomatically. No specific antidotes are recommended.

SECTION 5: Firefighting measures

General fire hazards May form combustible dust concentrations in air.

5.1. Extinguishing media

Suitable extinguishing

media

Water spray. Apply extinguishing media carefully to avoid creating airborne dust.

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

High concentration of airborne dust may form explosive mixture with air. Static charges generated by emptying package in or near flammable vapour may cause flash fire. Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

5.3. Advice for firefighters

Special protective equipment for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures

Wear suitable protective equipment. Use water spray to cool unopened containers.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency

personnel

Wear appropriate personal protective equipment.

For emergency responders

Keep unnecessary personnel away.

6.2. Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Take precautionary measures against static discharge. Use only non-sparking tools. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Stop the flow of material, if this is without risk.

Large Spills: Wet down with water and dike for later disposal. Shovel the material into waste container. Following product recovery, flush area with water.

Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal.

6.4. Reference to other sections

Not available.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Minimise dust generation and accumulation. Avoid significant deposits of material, especially on horizontal surfaces, which may become airborne and form combustible dust clouds and may contribute to secondary explosions. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Explosion-proof general and local exhaust ventilation. Static electricity and formation of sparks must be prevented. Maintain a fire watch if material reaches 225°C (437°F). Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store indoor. Keep in a cool, well-ventilated place. Store in original tightly closed container. Keep containers closed when not in use. Use care in handling/storage. Do not store outside. Care should be taken when storing and handling this product. Apart from the specific nature of the polymer product, conditions such as humidity, sunlight and temperature have an influence on the way the product behaves during storage and handling. Special attention should be paid to avoid inappropriate stacking of palletised bags or other package units. Indeed, polymer products may be dimensionally unstable under certain conditions. Keep away from heat, sparks and open flame. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. To maintain product quality, do not store in heat or direct sunlight. Store at ambient temperature and atmospheric pressure. Guard against dust accumulation of this material. Do not stack Flexible Intermediate Bulk Containers (FIBCs) or palletised bags. Avoid storage under pressure or at elevated temperatures to minimise particulate clustering.

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

	gioves.		

If engineering controls do not maintain airborne concentrations below recommended exposure Respiratory protection

limits (where applicable) or to an acceptable level (in countries where exposure limits have not

been established), an approved respirator must be worn. Dust Mask.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

When using, do not eat, drink or smoke, Always observe good personal hygiene measures, such Hygiene measures

as washing after handling the material and before eating, drinking, and/or smoking. Routinely

wash work clothing and protective equipment to remove contaminants.

Environmental exposure

controls

Environmental manager must be informed of all major releases. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Solid.

Ground/Powder **Form**

Colour White. Odourless. Odour Melting point/freezing point Not available. Boiling point or initial boiling Not applicable. point and boiling range

The product is not flammable. **Flammability**

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Not applicable. Explosive limit - lower (%) Not applicable.

temperature

Explosive limit - upper

Not applicable.

(%)

Explosive limit - upper (%) Not applicable.

temperature

Flash point Not applicable. Not available. Auto-ignition temperature **Decomposition temperature** Not available. Not applicable. Kinematic viscosity Not available.

Solubility

Solubility (water) Insoluble Partition coefficient Not available.

(n-octanol/water) (log value)

Vapour pressure Not available.

Density and/or relative density

Relative density > 0.88 - < 0.95 Not available. Vapour density Not available. Particle characteristics

9.2. Other information

9.2.1. Information with regard to physical hazard classes

No relevant additional information available.

9.2.2. Other safety characteristics

Dust explosion properties

<200 bar.m/s Kst = 1 Kst Not applicable. **Evaporation rate**

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous

reactions

Risk of self-heating and self-ignition under long term exposure to high temperatures. No

dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid Keep away from heat, sparks and open flame. Minimise dust generation and accumulation. Avoid

exposure to high temperatures or direct sunlight.

10.5. Incompatible materials

Strong oxidising agents.

10.6. Hazardous decomposition products Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular

weight hydrocarbons.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Inhalation of vapours/fumes generated by heating this product may cause respiratory irritation

with throat discomfort, coughing or difficulty breathing. Inhalation of dusts may cause respiratory

irritation.

Skin contact No adverse effects due to skin contact are expected.

Eye contact Health injuries are not known or expected under normal use. Dust in the eyes will cause irritation.

Ingestion Health injuries are not known or expected under normal use.

Symptoms Direct contact with eyes may cause temporary irritation.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Not classified. **Acute toxicity**

Styrene-Butadiene-Styrene Polymer (SBS) USP Systemic Toxicity Study in Mice - Extract:. No significant

and/or relevant adverse effects reported.; for a representative

substance.

Skin corrosion/irritation Not classified.

Irritation Corrosion - Skin

Styrene-Butadiene-Styrene Polymer (SBS) USP Intracutaneous Study in Rabbits - Extract:, for a

representative substance.

Result: Negative.

Serious eye damage/eye

irritation

No data available.

Respiratory sensitisation No data available. Skin sensitisation Not classified.

Sensitisation

Styrene-Butadiene-Styrene Polymer (SBS) Tests for irritation and skin sensitization, for a representative

substance.

Result: Negative.

Notes: ISO 10993-10 Guinea Pig Maximization Sensitization

Test

Germ cell mutagenicity Not classified.

Mutagenicity

In Vitro Bacterial Mutagenicity Study in E.Coli and Styrene-Butadiene-Styrene Polymer (SBS)

S. Typhimurium from extract, for a representative substance.

Result: Negative.

Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

IARC Monographs, Overall Evaluation of Carcinogenicity

Phenol, 2,6-bis(1,1-dimethylethyl)-4-methyl-

3 Not classifiable as to carcinogenicity to humans.

(CAS 128-37-0)

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard

Not an aspiration hazard.

Mixture versus substance

information

No information available.

11.2. Information on other hazards

Endocrine disrupting

properties

The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU)

2018/605 at levels of 0.1% or higher.

Other information

Other information

Styrene-Butadiene-Styrene Polymer (SBS)

Cytotoxicity Study using the Colony Assay in Chinese Hamster Lung Cells (V79):, No significant and/or relevant adverse effects reported.; for a representative substance. In Vitro Haemolysis Study in Red Blood Cells, Japanese MHLW: No significant and/or relevant adverse effects reported.: for a representative substance.

USP Muscle Implantation Study in Rabbits - 7 Day: No significant and/or relevant adverse effects reported.; for a

representative substance.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic

environment.

Species Test Results Components

Styrene-Butadiene-Styrene Polymer (SBS) (CAS 9003-55-8)

Aquatic Acute

LC50 Fish Rainbow trout > 1000 mg/l, 96 hr

* Estimates for product may be based on additional component data not shown.

12.2. Persistence and

degradability

Not inherently biodegradable.

12.3. Bioaccumulative

potential

No data available.

Partition coefficient n-octanol/water (log Kow) Not available.

Bioconcentration factor (BCF)

Not available. 12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB

assessment

This mixture does not contain substances assessed to be vPvB / PBT according to Regulation

(EC) No 1907/2006, Annex XIII.

12.6. Endocrine disrupting

properties

The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU)

2018/605 at levels of 0.1% or higher.

12.7. Other adverse effects Not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations.

Contaminated packaging Not applicable.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of

contents/container in accordance with local/regional/national/international regulations.

Dispose in accordance with all applicable regulations. Special precautions

SECTION 14: Transport information

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Not listed

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended

Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Regulation (EC) No. 1907/2006. REACH Article 59(10) Candidate List as currently published by ECHA

Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use, as amended - Conditions of restriction given for the associated entry number should be considered

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended.

Regulation 2019/1148 on Marketing and Use of Explosive Precursors, Annex I, as amended

Regulation 2019/1148 on Marketing and Use of Explosive Precursors, Annex II, as amended

Not listed.

The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Other regulations

Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation

(EC) No 1907/2006, as amended.

Follow national regulation for work with chemical agents. **National regulations**

France regulations

France INRS Table of Occupational Diseases

Not regulated.

15.2. Chemical safety

No Chemical Safety Assessment has been carried out.

Water hazard class

assessment

AwSV

Non-hazardous to water. ID Number 766

SECTION 16: Other information
