SAFETY DATA SHEET

Version #- 4 1

Issue date: 17-August-2017 Revision date: 30-January-2024 Supersedes date: 12-June-2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation

of the mixture

Kraton™ D Polymers (SBS and SBS OE)

Nanoform.

Registration number

This SDS covers all alphanumeric suffixes for the following products. Suffixes designate location Synonyms of manufacture, dusting agent, product form. * This SDS IS NOT for milled grades (3rd suffix M) * The Nanoform statement and information regarding Silica, amorphous which is listed in Sections

1 and 3 are applicable ONLY when these grades contain silica as a dusting agent (2nd suffix S). * Synthetic amorphous silica is a nanostructured material according to the definition of ISO TS 80004-1 and as defined in Regulation 2011/696/EU, as amended. * The silica dusting agent is composed of primary particles with a median size < 100 nm which are present as aggregates and

agglomerates with a mean diameter scale range above 100 nm in the dusting agent used.

SDS number 14313

D1101, D1102, D1116, D1118, D1152, D1155, D1157, D1184, D1189, D1191, D1192, D0243, **Product code**

D0246, DX1000, D4150, D4153, D4270, D4271

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Industrial use Uses advised against None known.

1.3. Details of the supplier of the safety data sheet

Material name: Kraton™ D Polymers (SBS and SBS OE) 14313 Version #: 4,1 Revision date: 30-January-2024 Issue date: 17-August-2017

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The substance has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This substance does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: Styrene-Butadiene-Styrene Polymer (SBS)

Hazard pictograms Signal word None.

Hazard statements Not applicable.

Precautionary statements

Not applicable. Prevention Not applicable. Response Storage Not applicable. **Disposal** Not applicable.

Supplemental label

information

None.

2.3. Other hazards This mixture does not contain substances assessed to be vPvB / PBT according to Regulation

> (EC) No 1907/2006, Annex XIII. The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. Static charge accumulation

potential.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
Styrene-Butadiene-Styrene Polymer (SBS)	<100	9003-55-8 -	-	-	
Classification	n: -				
Silica, amorphous	<1	7631-86-9 231-545-4	-	-	
Classification): -				

Nanoform

Silica, amorphous

Particle size >0,1 µm Agglomerates

Particle size distribution 0 Not available

SECTION 4: First aid measures

Not available. General information

4.1. Description of first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists. Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists. Eye contact

Ingestion Rinse mouth. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and

delayed

Dusts may irritate the respiratory tract, skin and eyes. Prolonged contact may cause dryness of

the skin.

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically. No specific antidotes are recommended.

SECTION 5: Firefighting measures

General fire hazards Static charges generated by emptying package in or near flammable vapour may cause flash fire.

Material name: Kraton™ D Polymers (SBS and SBS OE)

SDS EU 14313 Version #: 4,1 Revision date: 30-January-2024 Issue date: 17-August-2017

5.1. Extinguishing media

Suitable extinguishing

media

Water spray, dry chemical, carbon dioxide.

Unsuitable extinguishing

media

Do not use water jet.

5.2. Special hazards arising from the substance or mixture

Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

5.3. Advice for firefighters

Special protective equipment for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special fire fighting procedures

Wear suitable protective equipment. Use water spray to cool unopened containers.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency

personnel

Wear appropriate personal protective equipment. If spilled, may cause a slipping hazard.

For emergency responders

Keep unnecessary personnel away.

6.2. Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Avoid the generation of dusts during clean-up. The product is immiscible with water and will

spread on the water surface.

6.4. Reference to other sections

Not available.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Minimise dust generation and accumulation. Avoid heat, sparks, open flames and other ignition sources. Do not smoke. Static electricity and formation of sparks must be prevented. Ground container and transfer equipment to eliminate static electric sparks. Maintain a fire watch if material reaches 225°C (437°F). Avoid contact with hot material. Do not breathe dust from this material. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Store indoor. Keep away from heat, sparks and open flame. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. To maintain product quality, do not store in heat or direct sunlight. Keep in a cool, well-ventilated place. Store in original tightly closed container. Keep containers closed when not in use. Store at ambient temperature and atmospheric pressure. Guard against dust accumulation of this material. Use care in handling/storage. Do not stack Flexible Intermediate Bulk Containers (FIBCs) or palletised bags. Avoid storage under pressure or at elevated temperatures to minimise particulate clustering. Do not store outside. Care should be taken when storing and handling this product. Apart from the specific nature of the polymer product, conditions such as humidity, sunlight and temperature have an influence on the way the product behaves during storage and handling. Special attention should be paid to avoid inappropriate stacking of palletised bags or other package units. Indeed, polymer products may be dimensionally unstable under certain conditions.

7.3. Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

UK. OELs. Workplace Exposure Limits (WELs) (EH40/2005 (Fourth Edition 2020)), Table 1 Additional components Type

Talc TWA 1 ma/m3 Respirable dust.

Biological limit values

No biological exposure limits noted for the ingredient(s).

Recommended monitoring

procedures

Follow standard monitoring procedures.

Derived no effect levels

(DNELs)

Not available.

Not available.

Predicted no effect

concentrations (PNECs)

8.2. Exposure controls

Appropriate engineering

controls

Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes

Form

that may be generated during handling or thermal processing.

Individual protection measures, such as personal protective equipment

General information Personal protection equipment should be chosen according to the CEN standards and in

discussion with the supplier of the personal protective equipment.

Wear safety glasses with side shields (or goggles). Eye/face protection

Skin protection

- Hand protection Gloves are recommended for prolonged use. When handling hot material, use heat resistant

gloves.

- Other Wear suitable protective clothing and gloves.

Respiratory protection If ventilation is insufficient, suitable respiratory protection must be provided.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material

and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

Environmental exposure

controls

Emissions from ventilation or work process equipment should be checked to ensure they comply

with the requirements of environmental protection legislation. Fume scrubbers, filters or

engineering modifications to the process equipment may be necessary to reduce emissions to

acceptable levels. Avoid release to the environment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Solid

Form Porous Pellet or Dense Pellet.

Colour White. Odourless. Odour Melting point/freezing point Not available. **Boiling point or initial boiling** Not applicable.

point and boiling range

Flammability The product is not flammable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Not applicable.

Not applicable.

Explosive limit - lower (%)

temperature

Not applicable.

Explosive limit - upper

(%)

Not applicable.

Not applicable.

Explosive limit - upper (%)

temperature

Not applicable.

Not applicable. Flash point Not available. **Auto-ignition temperature** Not available. **Decomposition temperature**

Not applicable. Kinematic viscosity Not available.

Solubility

Solubility (water) Insoluble.

Partition coefficient Not available.

(n-octanol/water) (log value)

Vapour pressure Not applicable.

Density and/or relative density

Relative density > 0,88 - < 0,95 at 20°C

Vapour density Not applicable.

Particle characteristics Not available.

9.2. Other information

9.2.1. Information with regard No relevant additional information available.

to physical hazard classes

9.2.2. Other safety characteristics

Evaporation rate Not applicable.

SECTION 10: Stability and reactivity

10.1. Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability Material is stable under normal conditions.

10.3. Possibility of hazardous Risk of self-heating and self-ignition under long term exposure to high temperatures. No

reactions dangerous reaction known under conditions of normal use.

10.4. Conditions to avoidAvoid exposure to high temperatures or direct sunlight.

10.5. Incompatible materials Strong acids, alkalies and oxidizing agents.

10.6. HazardousUpon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

SECTION 11: Toxicological information

General information Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

Inhalation Inhalation of vapours/fumes generated by heating this product may cause respiratory irritation

with throat discomfort, coughing or difficulty breathing. Inhalation of dusts may cause respiratory

irritation

Skin contact No adverse effects due to skin contact are expected.

Eye contact Health injuries are not known or expected under normal use. Dust in the eyes will cause irritation.

Fumes released during thermal processing may cause eye irritation.

Ingestion Health injuries are not known or expected under normal use.

Symptoms Direct contact with eyes may cause temporary irritation.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not classified.

Styrene-Butadiene-Styrene Polymer (SBS)

USP Systemic Toxicity Study in Mice – Extract:, No significant

and/or relevant adverse effects reported.; for a representative

substance.

Skin corrosion/irritation Not classified.

Irritation Corrosion - Skin

Styrene-Butadiene-Styrene Polymer (SBS)

USP Intracutaneous Study in Rabbits – Extract:, for a

representative substance.

Result: Negative.

Serious eye damage/eye

irritation

No data available.

Respiratory sensitisation No data available.

Skin sensitisation Not classified.

Sensitisation

Styrene-Butadiene-Styrene Polymer (SBS)

Tests for irritation and skin sensitization, for a representative

substance.

Result: Negative.

Notes: ISO 10993-10 Guinea Pig Maximization Sensitization

Test

Germ cell mutagenicity Not classified.

Material name: Kraton™ D Polymers (SBS and SBS OE)

Mutagenicity

Styrene-Butadiene-Styrene Polymer (SBS)

In Vitro Bacterial Mutagenicity Study in E.Coli and

S. Typhimurium from extract, for a representative substance.

Result: Negative.

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Carcinogenicity

This product is not expected to cause reproductive or developmental effects. Reproductive toxicity

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard

Mixture versus substance

Not an aspiration hazard. No information available.

information

11.2. Information on other hazards

Endocrine disrupting properties

The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Other information

Styrene-Butadiene-Styrene Polymer (SBS)

Cytotoxicity Study using the Colony Assay in Chinese Hamster Lung Cells (V79):, No significant and/or relevant adverse effects reported.; for a representative substance. In Vitro Haemolysis Study in Red Blood Cells, Japanese MHLW:, No significant and/or relevant adverse effects

reported.; for a representative substance.

USP Muscle Implantation Study in Rabbits - 7 Day:, No significant and/or relevant adverse effects reported.; for a

representative substance.

SECTION 12: Ecological information

12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic

environment.

Components **Species Test Results**

Styrene-Butadiene-Styrene Polymer (SBS) (CAS 9003-55-8)

Aquatic

Acute

Fish LC50 Rainbow trout > 1000 mg/l, 96 hr

12.2. Persistence and

degradability

Not inherently biodegradable.

12.3. Bioaccumulative

potential

The product is not bioaccumulating.

Partition coefficient

n-octanol/water (log Kow)

Not available.

Bioconcentration factor (BCF) Not available. 12.4. Mobility in soil No data available.

12.5. Results of PBT and vPvB

assessment

This mixture does not contain substances assessed to be vPvB / PBT according to Regulation

(EC) No 1907/2006, Annex XIII.

12.6. Endocrine disrupting

properties

The product does not contain components considered to have endocrine disrupting properties

according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU)

2018/605 at levels of 0.1% or higher.

12.7. Other adverse effects Not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Residual waste Dispose of in accordance with local regulations.

Contaminated packaging Not applicable.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Disposal methods/information Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Dispose in accordance with all applicable regulations. Special precautions

Material name: Kraton™ D Polymers (SBS and SBS OE) 14313 Version #: 4,1 Revision date: 30-January-2024 Issue date: 17-August-2017

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended

Not listed.

Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended

Not listed

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended

Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

Not listed

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use, as amended - Conditions of restriction given for the associated entry number should be considered

Not listed

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended.

Not listed.

Regulation 2019/1148 on Marketing and Use of Explosive Precursors, Annex I, as amended

Not listed

Regulation 2019/1148 on Marketing and Use of Explosive Precursors, Annex II, as amended

Not listed.

Other regulations The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP

Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation

(EC) No 1907/2006, as amended.

National regulations Follow national regulation for work with chemical agents.

France regulations

France INRS Table of Occupational Diseases

Not regulated.

15.2. Chemical safety No Chemical Safety Assessment has been carried out.

assessment

Water hazard class AwSV: WGK 1 for the following products: D4150, D4153, D4270, D4271.

Water hazard class AwSV: Non-hazardous to water, ID number 766 for the following products: D1101, D1102, D1116, D1118, D1152, D1155, D1157, D1184, D1189, D1191, D1192, D0243,

D0246, DX1000.
